20 SUPERB SUMMER-BLOOMING JAPANESE IRIS FOR \$3.00

If I had to choose just one group of Iris, it would be the Japanese Iris because of their great size and striking beauty. At this low price every flower-lover can afford to have a collection of these gorgeous beauties. There is nothing more showy and as they blossom after the other Iris have finished flowering, they thus prolong the Iris season for several weeks. Many of the flowers measure 8 to 10 inches across. Some of the new, rare, and unusual varieties that have never been offered before in a low-priced collection will be included. A fine color range will be found in each collection, unlabeled.

25 WORLD'S FINEST SIBERIAN IRIS, \$3.00

This is the finest collection of Siberian Iris obtainable anywhere in the world at any price. They are prodigious bloomers, an established clump producing fifty or more stalks with hundreds of flowers open at one time. Nothing is easier to grow or requires less care. Full sun or partial shade, dry or damp location, rich or poor soil, is all the same to them. In form they differ from all other Iris. Many eminent authorities consider them the most satisfactory of all Iris. I will include in each collection varieties that recently sold at \$5.00 to \$25.00 for a single plant, and will personally select them to cover a fine color range, unlabeled.

"GOLDEN GLEAM" COLLECTION OF DAFFODILS, NARCISSUS, JONQUILS, ETC.

20 FOR \$1.00; 50 FOR \$2.00; 100 FOR \$3.50; 1,000 FOR \$17.50

A well-balanced mixture, unlabeled, of many of the finest types. No investment could give you more pleasure or permanent beauty, for they will not only flower beautifully in your garden early next Spring, but will multiply and increase in beauty from year to year with no care when once planted. Besides their garden beauty, there is nothing more attractive for cut flowers. No garden should be without these Spring beauties at this attractive price. This is the lowest price I have ever made on them.
